COVID-19.....

- Today is an extremely desperate time of humanity's history for struggling against an irresponsible adversary, named COVID-19, an infection caused by SARS-CoV-2.
- It always active, tirelessly communicates, and recontaminates human health. It acts as the human population reducing vaccine.
- The first seed was found in Wuhan, Hubei Province, Central China, the first epicenter of infection in 2019.
- It is rapidly spreading and debasing human wellbeing, which jeopardizes many lives due to expanded globalization and an excellent adaptation manner.
- The geographical development of the present pandemic COVID-19 continues over the globe, which is very contagious and causes a severe state of respiratory tract infections.
- At present, two million individuals are succumbed to be infected worldwide.
- It has now become a pathogen with [unprecedentedly](#) [highly](#) [contagious](#) [nature](#) [and](#) [high](#) [mortality](#) [rate](#).

How to Prepare for NET Examination?

1. Systematic approach
Read the questions carefully and attempt those questions first which you are confident of solving easily.
If some questions take too much time, leave that question to be solved in the last and jump to other questions.
As there is no negative marking, try to attempt and mark each and every question whether you know the answer or not.
Note: Use pencil. Use "T", "B" and "X" marks in the question paper.

Participants: senthil, You, Karthi, M, 1/90 others

Controls: Mute, Video Off, Chat, More Options, End Meeting
